

Abstract

The invention provides an excellent means of giving an excellent bleaching effect when a liquid bleaching composition is used as foam. A liquid composition containing (a) hydrogen peroxide, (b) a specific sugar derivative-based surfactant, (c) polyoxyalkylene alkyl ether wherein the carbon number of the alkyl group is 10 to 14 and the mole number of oxyalkylene added on the average is 7 to 12, and (d) water in a specific ratio is foamed and used in bleaching of clothing.
